January—February

| | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Studies of Patients with Hyperglyceridemia | Laurance W. Kinsell <i>George D. Michaels</i> <i>Geoffrey Walker</i> <i>Stanford Splitter</i> <i>Robert E. Visintine</i> <i>with the technical assistance of</i> <i>Marjorie Coelho</i> <i>Joyce Conklin</i> <i>George Fukayama</i> <i>Florence Olson</i> <i>Sadie Smyrl</i> | 1 |
| Fatty Acid Distributions in Serum Lipids and Serum Lipoproteins | Frank T. Lindgren <i>Alex V. Nichols</i> <i>Robert D. Wills</i> | 13 |
| Studies on the Characterization of Human Serum Lipoproteins Separated by Ultracentrifugation in a Density Gradient. I. Serum Lipoproteins in Normal, Hyperthyroid and Hypercholesterolemic Subjects | David G. Cornwell <i>Fred A. Kruger</i> <i>George J. Hamwi</i> <i>J. B. Brown</i> | 24 |
| Studies on the Characterization of Human Serum Lipoproteins Separated by Ultracentrifugation in a Density Gradient. II. Serum Lipoproteins in Hyperlipemic Subjects | David G. Cornwell <i>Fred A. Kruger</i> <i>George J. Hamwi</i> <i>J. B. Brown</i> | 41 |
| Inborn Errors of Sphingolipid Metabolism | Alfred G. Knudson, Jr. | 55 |
| Sphingomyelin Synthesis in Niemann-Pick Disease | Allen C. Crocker <i>Vivian B. Mays</i> | 63 |
| A Possible Defect in Triglyceride Transport in Idiopathic Hyperlipemia | H. C. Meng | 68 |
| The Serum Lipids and Lipoproteins in Normal and Hyperlipidemic Subjects as Determined by Preparative Ultracentrifugation. Effects of Dietary and Therapeutic Measures. Changes Induced by <i>In Vitro</i> Exposure of Serum to Sonic Forces | Robert H. Furman <i>R. Palmer Howard</i> <i>Kappagantula Lakshmi</i> <i>Leonard N. Norcia</i> | 73 |
| Studies on Enzyme Alterations in the Infantile Sphingolipidoses. Correlation with Pathologic Changes | Stanley M. Aronson <i>Abraham Saifer</i> <i>Guta Perle</i> <i>Bruno W. Volk</i> | 103 |
| New Methods for the Separation and Quantitative Isolation of Lipids. Initial Application to the Study of Beef Brain and Spleen Lipids in Gaucher's Disease | George Rouser <i>A. J. Bauman</i> <i>Gene Kritchevsky</i> | 112 |

| | | |
|-------------------------------------------------------------------------------------------------------------------------|-------------------------------------|-----|
| Incorporation of P ³² -Labeled Orthophosphate into Tissue Phospholipids of Intact Animals. Summary | <i>Gerhard Schmidt</i> | 124 |
| | <i>Louis H. Fingerman</i> | |
| | <i>Herbert M. Kreevoy</i> | |
| | <i>P. DeMarco</i> | |
| | <i>S. J. Thannhauser</i> | |
| Effect of Dietary Cholesterol on Serum Cholesterol in Man | <i>Ancel Keys</i> | 126 |
| ASCN News | | 127 |
| Conference Notes | | 132 |
| Reviews of Recent Books | | 134 |
| Abstracts of Current Literature: Newer Dietary Studies; Items of General Interest | | 136 |

March—April

| | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Introduction to Papers from the Institute of Nutrition of Central America and Panama | <i>Nevin G. Scrimshaw</i> | 141 |
| Factors Influencing Serum Cholesterol Levels of Central American Children. I. Effect of Adding Fat and Animal Protein to the Diet | <i>José Méndez</i> <i>Nevin S. Scrimshaw</i> <i>Werner Ascoli</i> <i>Miguel A. Guzmán</i> | 143 |
| Factors Influencing Serum Cholesterol Levels of Central American Children. II. The Effect of Gross Dietary Changes | <i>José Méndez</i> <i>Nevin S. Scrimshaw</i> <i>Marina Flores</i> <i>Romeo de León</i> <i>Moisés Béhar</i> | 148 |
| Infection and Nutritional Status. I. The Effect of Chicken Pox on Nitrogen Metabolism in Children | <i>Dorothy Wilson</i> <i>Ricardo Bressani</i> <i>Nevin S. Scrimshaw</i> | 154 |
| Infection and Nutritional Status. II. Effect of Mild Virus Infection Induced by 17-D Yellow Fever Vaccine on Nitrogen Metabolism in Children | <i>Yaro Ribeiro Gandra</i> <i>Nevin S. Scrimshaw</i> | 159 |
| Serum Ascorbic Acid, Riboflavin, Carotene, Vitamin A, Vitamin E and Alkaline Phosphatase Values in Central American School Children | <i>Miguel A. Guzmán</i> <i>Guillermo Arroyave</i> <i>Nevin S. Scrimshaw</i> | 164 |
| Urinary Excretion of Creatinine of Children under Different Nutritional Conditions | <i>Guillermo Arroyave</i> <i>Dorothy Wilson</i> | 170 |
| Serum and Urinary Creatinine in Children with Severe Protein Malnutrition | <i>Guillermo Arroyave</i> <i>Dorothy Wilson</i> <i>Moisés Béhar</i> <i>Nevin S. Scrimshaw</i> | 176 |
| Serum and Liver Vitamin A and Lipids in Children with Severe Protein Malnutrition | <i>Guillermo Arroyave</i> <i>Dorothy Wilson</i> <i>José Méndez</i> <i>Moisés Béhar</i> <i>Nevin S. Scrimshaw</i> | 180 |

Contents

v

| | | |
|------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Role of the Adrenal Cortical System in the Response of Children to Severe Protein Malnutrition | <i>Héctor Castellanos</i> <i>Guillermo Arroyave</i> | 186 |
| All-Vegetable Protein Mixtures for Human Feeding. V. Clinical Trials with INCAP Mixtures 8 and 9 and with Corn and Beans | <i>Nevin S. Scrimshaw</i> <i>Moisés Béhar</i> <i>Dorothy Wilson</i> <i>Fernando Viteri</i> <i>Guillermo Arroyave</i> <i>Ricardo Bressani</i> | 196 |
| Diet and Serum Cholesterol Levels Among the "Black Caribs" of Guatemala | <i>Nevin S. Scrimshaw</i> <i>José Méndez</i> <i>Marina Flores</i> <i>Miguel A. Guzmán</i> <i>Romeo de León</i> | 206 |
| New Dimensions for Public Health Nutrition. The Challenge of Chronic Disease and Aging | <i>Dorothy M. Youland</i> | 211 |
| Sex Variation in the Nutritional State of Urban Zulu Adults. I. Weight, Skinfold Thickness, and Skin and Mucosal Lesions | <i>J. H. Abramson</i> <i>B. Gampel</i> <i>C. Slome</i> <i>N. Scotch</i> | 217 |
| Sex Variations in the Nutritional State of Urban Zulu Adults. II. Serum Protein Levels and Prevalence of Edema | <i>B. Gampel</i> <i>J. H. Abramson</i> <i>C. Slome</i> <i>N. Scotch</i> | 229 |
| Serum and Liver Cholesterol, Total Lipids and Lipid Phosphorus Levels of Rats under Various Dietary Regimens | <i>E. B. Wilcox</i> <i>L. S. Galloway</i> | 236 |
| ASCN News | | 244 |
| Reviews of Recent Books | | 254 |
| Abstracts of Current Literature: Physiology of Gastrointestinal Function; Items of General Interest | | 256 |

May—June

| | | |
|------------------------------------------------------------------------------|------------------------------------|-----|
| Introduction to Symposium on Additives and Residues in Human Foods | <i>T. D. Luckey</i> | 259 |
| Additives and Residues in Foods of Animal Origin | <i>H. R. Bird</i> | 260 |
| Chemical Residues and Additives in Foods of Plant Origin | <i>Robert N. Goodman</i> | 269 |
| Industry Problems in Developing Intentional Food Additives | <i>J. F. Mahoney</i> | 277 |
| Government Problems in Dealing with Additives and Residues in Food | <i>Paul Day</i> | 283 |
| Medical View of Additives and Residues in Foods | <i>J. M. Coon</i> | 288 |

Contents

| | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Panel Discussion of Additives and Residues in Human Foods | 297 |
| Present Status of Vitamin B ₆ Metabolism | <i>David Baird Coursin</i> |
| Serum Magnesium and Serum Cholesterol Changes in Man | <i>Manuel Garcia de los Rios</i> |
| Biological Study of Fifty-Six-Day Protein-Free Diet in Dogs | <i>Donald Dawson</i> <i>J. Garrott Allen</i> { 320 |
| Human Availability Studies of Five Vitamins in Sustained Release Form | <i>Samuel M. Greenberg</i> <i>John F. Herndon</i> <i>Donald R. MacDonnell</i> <i>Thomas L. Flanagan</i> <i>Amadeo Bondi</i> { 324 |
| Lysine and Potassium Supplementation of Wheat Protein | <i>Lewis A. Barness</i> <i>Robert Kaye</i> <i>Aree Valyasevi</i> { 331 |
| Renal Clearance of Calcium and Phosphorus in Experimental Urolithiasis | <i>Irene R. Payne</i> <i>Elizabeth L. Empey</i> <i>Clive M. McCay</i> { 345 |
| Follow-Up Study of Serum Cholesterol, Diet and Physical Findings of Italian-American Factory Workers | <i>Mary B. McCann</i> <i>Martha Trulson</i> <i>Frederick J. Stare</i> { 351 |
| Relationship Between Plasma Amino Acids and Composition of the Ingested Protein. II. A Shortened Procedure to Determine Plasma Amino Acid (PAA) Ratios | <i>J. B. Longenecker</i> <i>N. L. Hause</i> { 356 |
| Reviews of Recent Books | 363 |
| Nutrition News | 364 |
| Abstracts of Current Literature: Adrenal Steroids and Nutrition; Liver Disease: Nutritional and Alcoholic; Magnesium Metabolism; Pyridoxine in Nutrition; Vitamin B ₁₂ and Intrinsic Factor; Notes on Niacin; Items of General Interest | 365 |

July—August

| | |
|-----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| On the Etiology of the Alcoholic Neurologic Diseases. With Special Reference to the Role of Nutrition | <i>Maurice Victor</i> <i>Raymond D. Adams</i> { 379 |
| Alcoholic Neuropathy | <i>Richard W. Hornabrook</i> |
| Some Unusual Neurologic Diseases Complicating Chronic Alcoholism | <i>Elliott L. Mancall</i> |
| Effects of Thiamine Deficiency on the Central Nervous System | <i>Pierre M. Dreyfus</i> <i>Maurice Victor</i> { 414 |
| The Intermediary Metabolism of Alcohol | <i>W. W. Westerfeld</i> |

Contents

vii

| | | |
|-------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Alcohol-Induced Triglyceride Deposition in Liver Through Derangement of Fat Transport | <i>B. B. Brodie</i> <i>W. M. Butler, Jr.</i> <i>M. G. Horning</i> <i>R. P. Maickel</i> <i>H. M. Maling</i> | 432 |
| Stimulation of Hepatic Fatty Acid Synthesis by Ethanol | <i>Charles S. Lieber</i> <i>Rudi Schmid</i> | |
| Experimental Studies on the Role of Alcohol in the Pathogenesis of Cirrhosis | <i>Gerald Klatskin</i> | 439 |
| Nitrogen Balance as Affected by Neoplastic Disease and Its Therapy | <i>Donald M. Watkin</i> | 446 |
| Fibrinolytic Activity of Whole Blood from South African Bantu and White Subjects | <i>Alexander R. P. Walker</i> | 461 |
| Folic Acid Metabolites in Whole Blood and Serum in Anemia of Pregnancy | <i>G. Izak</i> <i>M. Rachmilewitz</i> <i>A. Sadovsky</i> <i>B. Bercovici</i> <i>J. Aronovitch</i> <i>N. Grossowicz</i> | 473 |
| A Nutrition Survey of the Armed Forces of Iran | <i>John H. Browne</i> <i>Joseph S. Butts</i> <i>John B. Youmans</i> <i>Philip L. White</i> <i>C. Frank Consolazio</i> <i>David B. Hand</i> <i>Arthur G. Peterson</i> <i>Col. Laurence M. Hursh</i> <i>Brig. Gen. Morteza Tadayon</i> <i>Brig. Gen. Solymon Deyhimi</i> <i>Col. Rahmapollah Deyhimi</i> <i>Major Ali Khan Afrakhteh</i> <i>Cyrus E. French</i> <i>Arnold E. Schaefer</i> | |
| ASCN News | | 478 |
| Reviews of Recent Books | | 515 |
| Abstracts of Current Literature: Current Progress in Arteriosclerosis | | 517 |
| | | 519 |
| September—October | | |
| Foreword to Symposium on Overnutrition | <i>L. Emmett Holt, Jr.</i> | 525 |
| Introductory Remarks | <i>Gilbert B. Forbes</i> | 527 |
| Obesity: Physiologic Considerations | <i>Jean Mayer</i> | 530 |

| | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|-----|
| Some Psychologic Considerations Concerned with the Problem of Overnutrition | Dane G. Prugh | 538 |
| Some Consequences of Overnutrition with Minerals | D. Mark Hegsted | 548 |
| Some Implications of Amino Acid Supplementation | A. E. Harper | 553 |
| Effects of Stress on Animals Fed High Protein Diets | Elias Halac, Jr. | 557 |
| Atherosclerosis—A Pediatric Nutrition Problem? | Russell L. Holman | 565 |
| Serum Cholesterol Studies in Infants. A Comparison of Infants Fed Breast Milk, Evaporated Milk and Prepared Milk Formulas | Julius Pomeranz | 570 |
| Folic Acid, Vitamin B ₆ , Pantothenic Acid, and Vitamin B ₁₂ in Human Dietaries | <i>{ Aurora S. Mangay Chung William N. Pearson William J. Darby O. Neal Miller Grace A. Goldsmith }</i> | 573 |
| Management of Juvenile Diabetes at Camp Nyda. A Summary of Methods and Results Based on the Experiences in 1957 and 1958 | <i>{ Milton B. Handelsman Winifred C. Loughlin Gerald J. Friedman }</i> | 583 |
| An Interracial Study on the Serum Protein Pattern of Adult Men in Southern Africa | <i>{ B. Bronte-Stewart A. Antonis C. Rose-Innes A. D. Moodie }</i> | 596 |
| Serum Vitamin B ₁₂ Levels and Incidence of Tapeworm Anemia in a Population Heavily Infected with <i>Diphyllobothrium Latum</i> | <i>{ Wolmar Nyberg Ralph Gräsbeck Matti Saarni Bertel von Bonsdorff }</i> | 606 |
| Iron Content of Intact Placentas and Cords | <i>{ Bonnie A. McCoy Roberta E. Bleiler Margaret A. Ohlson }</i> | 613 |
| A Longitudinal Study of the Animal Protein Intake of Children from One to Eighteen Years of Age | <i>{ Bertha S. Burke Robert B. Reed Anna S. van den Berg Harold C. Stuart }</i> | 616 |
| Lysine Supplementation of a Rice and Milk Diet Fed to Children Recovering from Kwashiorkor and Undernutrition | <i>{ T. W. Wikramanayake C. C. de Silva P. V. D. Fernando Lalitha Jayawickrema }</i> | 625 |
| A Controlled Clinical Comparison of Benzphetamine and D-Amphetamine in the Management of Obesity | <i>{ Benjamin Simkin Leon Wallace }</i> | 632 |
| Nutrition Services in State Departments of Health. Retrospect and Prospect | Anna de Planter Bowes | 638 |

Contents

ix

| | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Coronary Heart Disease in South African "Poor Whites" and White Prisoners Habituated to a Bantu Type of Diet | <i>Alexander R. P. Walker</i> <i>Kathleen L. Mortimer</i> <i>P. J. Kloppers</i> <i>D. Botha</i> <i>H. Grusin</i> <i>H. C. Seftel</i> | 643 |
| ASCN News | 646 | |
| Reviews of Recent Books | 649 | |
| Abstracts of Current Literature: Recent Concepts in Obesity; Nutritive Value of Milk; Glucose, Fat and the Liver; Items of General Interest | 651 | |

November—December

| | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Adrenogenital Syndrome Due to Enzymatic Defects in Cortisol Synthesis | <i>Lawson Wilkins</i> | 661 |
| The Metabolic Basis for Certain Disorders of the Thyroid Gland | <i>John B. Stanbury</i> | 669 |
| Biochemical Genetics as Illustrated by Hereditary Galactosemia | <i>Herman M. Kalckar</i> | 676 |
| Glycogen Storage Disease | <i>Barbara Illingworth</i> | 683 |
| Phenylketonuria | <i>Sidney Udenfriend</i> | 691 |
| Wilson's Disease | <i>Alexander G. Bearn</i> | 695 |
| Sensitivity to Hemolytic Drugs. An Inborn Error of Metabolism of the Red Cell | <i>Ernest Beutler</i> | 700 |
| Effect of Food on the Absorption of Vitamin B ₁₂ | <i>Sheldon Siegel</i> <i>Bacon F. Chow</i> <i>Kunio Okuda</i> <i>Sue Chen</i> <i>Edward J. Hanus</i> | 705 |
| How Much Folic Acid is Safe in Pernicious Anemia? | <i>Maj. T. W. Sheehy</i> | 708 |
| Effects of Amino Acid Supplements on the Nutritive Value of Maize Protein for Human Adults | <i>A. Stewart Truswell</i> <i>John F. Brock</i> | 715 |
| Relationships Between Animal Protein, Total Protein and Total Caloric Intakes in the Diets of Children from One to Eighteen Years of Age | <i>Bertha S. Burke</i> <i>Robert B. Reed</i> <i>Anna S. van den Berg</i> <i>Harold C. Stuart</i> | 729 |
| Studies on Fat Metabolism in Kwashiorkor. II. Serum Poly-unsaturated Fatty Acids | <i>H. E. Schendel</i> <i>J. D. L. Hansen</i> | 735 |
| On the Vitamin B Complex Content of the Hair of Normal and Pellagrous Subjects | <i>Hugues Gounelle</i> <i>Milan Mitrovic</i> <i>Michel Demarne</i> | 746 |
| The Relationship Between Diet and Atherosclerosis in Ceylon | <i>T. W. Wikramanayake</i> <i>R. Panabokke</i> | 752 |

Contents

| | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------|-----|
| Studies on Serum Desmosterol Levels in Hypercholesteremic Subjects Treated with Triparanol (MER-29). | { Bernard A. Sachs Lila Wolfman} | 760 |
| Reviews of Recent Books | | 764 |
| Abstracts of Current Literature: Vitamin C Deficiency; Amino Acids and Nutrition; Nutritional Aspects of Vitamin A; Items of General Interest. | | 766 |
